

Vishvakarma Machine Tools

An ISO 9001 - 2015 Certified Company

VishvakarmaTM
Machine Tools

India's Oldest & Experienced
Manufacturer & Exporter of all types of
Kitchen Equipments
& Food Processing Machinery

*Vishvakarma*TM *Machine Tools*

Company Profile

We "Vishvakarma Machine Tools, Rajkot", Established in the year 1986, are Highly Recognised, as the Trusted ISO 9001:2015 Certified Manufacturer Supplier and Service Provider of Food Processing Machinery, Kitchen Equipment & Accessories such as Commercial Kitchen, Restaurant Kitchen.

These are Manufactured using the Finest Grade of Raw-Material and sophisticated technology at our Hi-tech Manufacturing Unit. We are using Finest Quality Materials, These Cooking Utensils are Highly Appreciated Among Our Esteems Customers as they are easy to Maintain & Clean. These Products are Easily Available in all Standard Sizes Keeping in mind our Customer's Convenience.

Our Offered Assortment is Widely Appreciated among our Esteemed Clients due to Their easy to Use. Low Maintain, Sturdiness, High Durability and Corrosion Resistance. Keeping in mind the Various Requirements of Clients, We are Offering our wide Range of Products as per their varied Requirements. Furthermore, these Products can be availed by Clients from us at the Reasonable Price.

Cooking Kettle With Planetary Mixer

Cooking Kettle with Planetary Mixer is effective sauteing method aided by its unique mixing tool and technology makes large volume of cooking very easy with its high grade Stainless Steel Body, High Pressure burners with Speed Controller mixing arm with Teflon Mixing Pad.

Use:

for Making Sambhar, Kurma, Grevy, Soups, Pickles, Khichadi, Sauce, Jam, Ayurvedic Oil & Paste, Biryani, Pulav, all type Sabji's are very commonly made items. Cooking Kettle is great for preparing sweets including different varieties of Halwa's, Mohanthal, Kheer, Basundi, Rabdi, Mysore Pak Etc...

Features:

- ▶ Cooking Kettle is use for browning, roasting, stewing, preperation of sauces, sauteing, braising, boiling Etc...
- ▶ Manual tilting mechanism to facilitate bowl emptying.
- ▶ Gas Operated with high pressure burners.
- ▶ Manual worm gear tilting mechanism.
- ▶ Cooking bowl is made from high grade SS 304.
- ▶ Smooth large surfaces, for easy access to cleaning

Continuous Bubble Veg. Washer (Conveyor System)

Bubble Veg. Washer, Used for fruit & vegetable cleaning. High-pressure bubble flows gently removes dirt, & residues from leafy greens, root veg, & fruits. Save water, reduce labor, & maintain food safety.

Model	CBWM-400
Motor	380 V
Capacity	400 kg / hr

Vegetable & Fruits Washer Machine

Vegetable & Fruits Washer is used to washing all types of vegetables and fruits, this machine is designed by water bubble system.

Model	VW1-BKT	VW2-BKT
Motor	0.5 KW	1.5 KW
Capacity	200 kg / hr	300 kg / hr

Vegetable / Pickle Peeler & Washer Machine

Model	800MM(32")	1000MM(40")	1500MM(60")
Roller Length	800MM	1000MM	1500MM
Capacity (kg)	200 Kg/Hr	350 Kg/Hr	450 Kg/Hr

This Machine Used to washing & peeling all types of vegetables & pickle..

Veg. Bowl Chopping Machine

Bowl Chopper is specially design for chopping all types of vegetables like onion, cabbage, carrot, ginger, garlic, chilli etc..

Model	BCM-05	BCM-20
Motor	550 W	1500 W
Capacity	5 LTR	20 LTR

Double Head Veg.Cutting Machine

Double Head Veg Cutter Machine – designed for fast, precise, and effortless vegetable cutting. Perfect for commercial kitchens, hotels, restaurants, catering services, and food processing industries. Cutting onions, potatoes, carrots, cabbages, and other vegetables quickly and uniformly.

Model	DHC-500	DHC-800
Motor	2.4 KW	3.5 KW
Capacity	500 kg / hr	800 kg / hr

Vegetable Slicing & Cutting Machine

Vegetable Slicing & Cutting Machine is a high-performance, commercial solution designed for slicing, dicing, & cubing a wide variety of vegetables including leafy greens, root vegetables, & jelly cubes.

Model	VSC-21	VSC-31
Motor	220 v	380 v
Capacity	150 kg / hr	400 kg / hr

Vegetable Cutting Machine

Use : for Chopping , Slicing, Grating, Dicing, Cutting all type of Vegetables.

Kneading Capacity : 10 KG/Batch

Chapati Pressing Machine

Model	CPM
Motor (hp)	1 HP
Weight	107 KG
Capacity (Pcs)	900 - 1000
Chapati Size	9" Max.

Dough Roller and Cutting Machine

Use : for Rolling and Cutting of Papad, Chapati, Khakhra, Sakkarpara, Namakpara, Patti Samosa, Chorafali, Panipuri Etc...

Chapati Making Machine - 500 Chapati Per Hour

Chapati making machines are used to save time, produce consistent-sized and evenly cooked chapatis, and reduce manual labor for both home cooks and commercial kitchens. They are valuable for busy lifestyles, large families, and businesses that need to produce a high volume of chapatis efficiently, ensuring consistency in quality and reducing waste.

Chapati Making Machine-1000 Chapati Per Hour

A **chapati making machine** simplifies the process of preparing fresh, soft chapatis in large quantities with minimal effort. It is ideal for restaurants, hotels, hostels, and catering services to save time and labor costs. This automated solution ensures consistent quality, hygiene, and efficiency in every batch of chapatis.

Chapati Making Machine-2000 Chapati Per Hour

The **chapati making machine** (2000 roti per hour) is designed for high-volume food production with unmatched speed and consistency. It's perfect for canteens, hotels, factories, and catering units seeking to save time and labor costs.

Coconut Cutting Machine

Jelly Cutting Machine

A **jelly cube cutting** machine precisely cuts soft jelly blocks into uniform cubes with speed and accuracy. It's ideal for confectionery units, bakeries, and food processing industries to enhance production efficiency. This machine ensures consistent size, smooth finish, and hygienic operation for perfect jelly cubes every time.

Model	JCM 515
Motor (hp)	0.75 KW
Capacity / hr	100 KG

Industrial Washing Machine (Front Load)

Use: Industrial laundry machines are used by businesses & institutions & mandap services to handle high-volume, heavy-duty washing needs for items like hotel linens, hospital bedding, and mandap services clothes. These machines are built for durability, efficiency, and speed, allowing for faster processing and larger loads than domestic washers

Features:

- ▶ Well protected for performance with auto timed, auto reverse & auto digital temperature control.
- ▶ Gauge glass cork pair for water level indication.
- ▶ Performs all Type of wash with soap, detergent, bleaching, acid or any chemical wash including dying.
- ▶ Front display of controls through pilot lamps, push buttons, water level indication etc.
- ▶ Electrically & mechanically interlocked, S.S.Loading & Unloading doors.

Hammer Mill Pulverizer Machine

A **hammer mill pulveriser** is a type of machine used to grind, crush, or pulverize materials into smaller particles or powders. It is widely used in various industries, including agriculture, mining, pharmaceuticals, and food processing. The key feature of a hammer mill is the use of a series of rotating hammers (or blades) to strike the material, breaking it apart.

Garlic Broken & Peeling Machine

Capacity : 10 - 15 KG/Hr

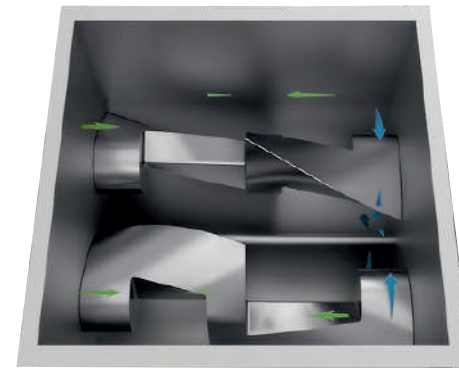

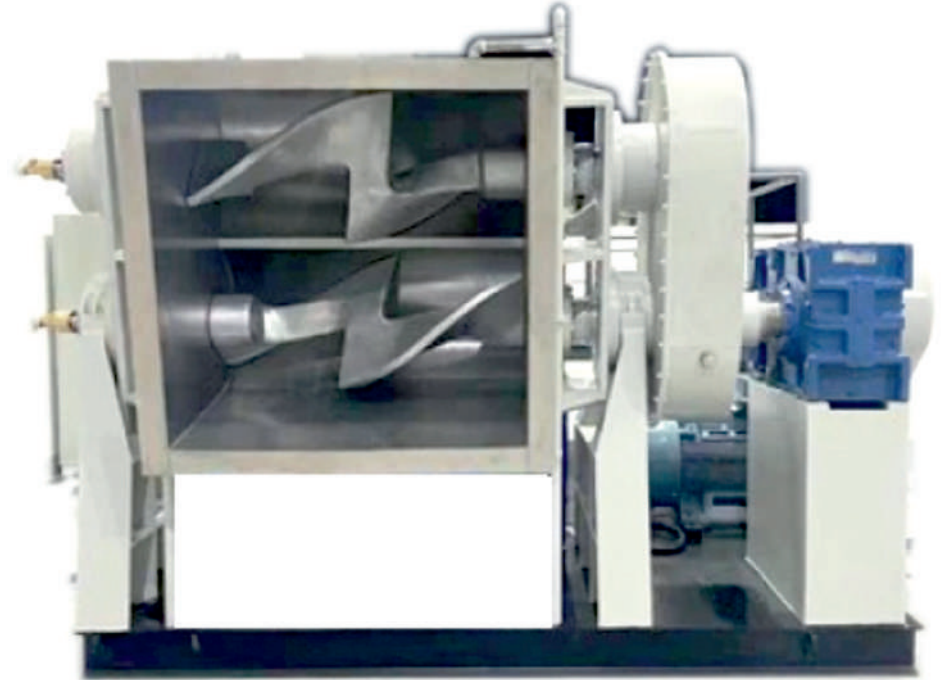

Manchurian Cutting Machine

Sigma Blade Dough Kneeder

Sigma Blade Mixers are engineered for the efficient mixing, kneading, and blending of solid and semi-solid materials. They cater to various applications, including dough, creams, slurries, and putties. With customizable designs, these mixers are suitable for diverse industries, from food processing to pharmaceuticals.

The Sigma Blade Mixer range offers a versatile solution for mixing, kneading, and blending solid and semi-solid materials across a variety of industries. These machines are particularly effective for handling materials like dough, powders, cream, paste, sludge, and slurries. The Sigma mixers are widely used in applications such as the preparation of finely milled wheat flour, bechamel sauce, polyester putty, glass putty, silicone, rubber, iron compounds, solvent adhesives, liquid soaps, detergents, and ceramic powders.
